

Dear Michael G. Reagan.

I think the things you do amazing things for people. I think you are a smart and talented person. The things you do, changes other lives. That's amazing. I can understand the feeling of having someone from the military. My grandpa, was in the navy, and my brother is thinking about going into the military. Its very scary. But hes grown, he can do what he wants. And with the things you do, is so amazing, and heart warming. You put a smile, on thousands of families. You have changed, thousands of lives. You have helped people. With the talent you have, you have changed a little bit of the world. Keep up the great work! Keep smiling. ☺

- Elizabeth Rawlings.
