

Dear Herzberg family,

I wanted to thank you for giving us this very memorial experience of sharing your Son's story with us. I know it's not easy to talk about someone who is physically not with us today, but I want you to know that with me and many others he will always be in our hearts. He has taught me how to love others and not to put myself first. His memories will forever live in the minds and hearts of all the student here. "Taking Chance" really opened the eyes of many and showed us how our freedom comes at an expensive price. It showed me how the harsh realities of the things people have to go through so that I can live a happy life. I will never be able to thank your son but I know that your family is the reason why Eric had such a heart of gold. Your son will always be remembered here along with all the sympathy our hearts can bear. Although some may never be able to realize how fortunate we are, your son's story, dedication, and loving personality has truly made me a better person, and I know many others

could also agree.

Thank You from the bottom of my heart for the impact you and Eric have made on me.

Love, Sophia Fisher
