

Dear Herzberg family.

We recently watched Taking Chance in science, and I now know how serious the topic is. Although I didn't know Eric, I'm glad he got such an honourable journey home. He was incredibly brave to volunteer his life for our country. The grief you've had to go through because of his sacrifice is unimaginable, and I will forever be grateful. Just know that every year, hundreds of Mona Shores students have your family in their thoughts.

Sincerely,

Summer Biesiada
